- 6 informational parent/child interactive sessions designed to help families understand the skills that help children so well in kindergarten. Each session will include how to help children learn to read, write, behave in a group, use numbers , play with others, and stay healthy.
- Families will receive resources and activities to do with their child at home.
- Free books for the children entering Kindergarten in the 2012 school year.
- **Families who register and attend all 6 sessions will receive a \$20.00 gift card.**

Our Goal is to engage children and their families to come together and their families to be part of something special; and to continue to provide parents and children the strategies and skills that will enhance their sense of optimism about learning. These skills will help children be successful in school.

This Program is a collaboration of effort of East Haven Early Childhood Collaborative and A Community Partnership with Private and Public Preschools. This Program is funded by the United Way of Greater New Haven "Success by Six Grant"
